An Invitation to your Heart

HERMANUS 2020

With Evan Klisser

Dear Fellow Seeker,

Our busy lives filled with responsibilities and distractions rarely provide the time and space to immerse ourselves in the deep peaceful silence that is the bedrock of existence. It often requires the intentional combining of several key factors to provide the ideal conditions for spiritual experiences that are the next level in our awakening process.

On these retreats you are offered such a synergy as a residential retreat. With the intentional creation of sacred space, in a most beautiful setting, with a spiritual teacher carrying a high frequency, the stage will be set to drop in, go deep and have your Divinity express itself as it sees fit to do.

About the Retreat

A way to run these retreats is to follow the flow of energy in the collective field. As things emerge, to draw on skills and experience to meet what is expressing itself in the moment. Such a semi-structured approach will be offered. There will be the usual foundational components such as meditation several times a day, times for questions and answers, sharing, and Satsang to engage the A to Z of this glorious and challenging awakening journey.

A unique component of this retreat will be ad hoc presentations of relevant glorious Divine teachings and practices given to Evan directly from the celestial realm. Some form of day-starting exercise to stretch the body(yoga, Qigong etc) will be offered along with wholesome nutritious food, breaking the day to rest, walk, contemplate and comfortable clean places to rest our moving temples over-night.

About Your Teacher

After completing his internship in Clinical Psychology in 1991, Evan established himself in the personal development space in various ways. He offered Shadow Work retreats, EQ workshops, group depth facilitation, executive and private coaching, Imago relationship coaching and general transformation services.

Running parallel with Evan's professional life was a steadily building intensity to know truth. In 1999 Sathya Sai Baba, an Avatar, revealed Himself to Evan in dramatic fashion granting him a super conscious experience. A Divine romance ensued with all the sublime feelings, incredible experiences, inner communication, dreams and transformation. These brought longed for satisfaction, security, peace, contentment and true love.

Evan's path is that of love and devotion. It's known as the easiest and most enjoyable path home to the mountain top of Self-Realization. A grace-drenched life filled with abiding peace, bliss and ongoing awakenings, such as Evan's, is possible for all. It only requires dedication to love and spiritual practice under the guidance of a loving responsible teacher. Evan offers the path of love he walks, side by side with Divinity, 100% from the heart. Though he teaches knowledge he has accumulated, the emphasis is very much on facilitation of spiritual experience. Evan creates powerful Shakti fields in his work, inviting Divine Will to use him as Her instrument.

About Evan continued...

Through his spiritual experiences, research into studies of awakening and consistent Divine guidance it became clear to Evan, that a full awakening is not just waking "up". The process is incomplete and dangerous without waking "in". This is the transformation work of self awareness and self-responsibility; of Personal Mastery, Shadow work, Emotional Intelligence and Relationship work. This transformation work has been heavily emphasised in Evan's dream guidance and brought him full circle back to the work he had done professionally since 1991. He has received Divinely sourced practices through his dreams which are offered to the seekers he works with.

Evan's approach is grounded in practicality, empowering seekers with customized processes and practices from a vast toolbox, to aid them to achieve their spiritual and transformational goals.

He is a member of the core workers group administering the world mission of an expression of the Divine Mother, Ganga Bhavani Maa. Evan's Master, Sathya Sai Baba, guided, encouraged and blessed him to support this Divine Mother mission which he has been doing gratefully since 2017.

His special areas of interest are Transformation, Kundalini, the Divine Life in the world, Dream interpretation, Inner child work, Supervising other coaches, and Love.

What retreatants say...

Vicky

An experience that is almost impossible to capture in words for me. The experience was life-changing for me. A beautiful , supportive environment - gentle, loving, caring, grounding, peaceful. A wonderful journey within. I loved that we did not follow a strict programme. It just flowed so beautifully and lovingly. It felt easy, natural and very very sacred. The silent reflections, the spaces in between where time stood still and my mind stopped racing. Meditation just felt so easy and natural. Oh, and opening up the heart and the gift of tears. That was profound.

Coenrie

It's the most amazing peaceful experience of my life. It was an experience that cannot be described in words - highest Spiritual levels. What stood out was the Sincerity and Love.

Andrew

Amazing. Very well organised. Would do again in a heart beat. Before the retreat my heart was closed. After the retreat my heart was open. Thank you for hosting it. It was life changing for me.

Jeremy

I had a truly miraculous time! It really felt like a "once in a lifetime" event and something that I will treasure for the years to come. I appreciated being exposed to Indian philosophy and practices, within a space that encouraged questioning and engagement. And being in a space that was held in such a way so as to allow for genuine vulnerability and openness allowing me to feel safe. Venue - so beautiful, truly something special. Accommodation - simple, but more than adequate.

What retreatants say...

Bronwyn

It was a very balanced retreat and I loved that it was divinely guided and flowed the way it did. A beautiful journey into a deeper understanding and nurturing of one's spiritual awakening filled with love, divine Shakti and growth.

Sharon

A wonderful safe space lovingly held in which to learn, meditate and process. Highlights were the sharing of both personal knowledge about the Vedic scriptures and also personal experience of the Kundalini process. Being held in the 'field' of love and high resonance was profound.

Pierre

I experienced a bit of heaven. Life changing in many ways.

Kavir

I admired how Evan took into account everyones needs and then surrendered this to the Divine Mother to ensure the vessels of their hearts would be filled with love, energy and peace. It was highly energizing and rejuvenating weekend for the mind, body and spirit. It had a beautiful blend of theory and practical techniques.

Rose

Evan's leadership is so gentle and inclusive. He is a vessel and vehicle of Divine Love which just pours out of him. The singing of Sanskrit devotional songs increased the Divine Shakti (energy) in the room. So going into deep meditation periods almost felt effortless and certainly very deep.

> **Liesbet** Peaceful, fluid, loving.

What retreatants say...

Hilton

I really enjoyed the Kirtans (group devotional songs) that were familiar - the feeling of this vibration on the physical body and heart was profound and the stillness that followed seemed to transcend this world. I enjoyed the venue. Was great to walk to meals and rooms. Acoustics felt good in the hall. Carpeted floor was great. Felt comfortable. Lovely to be in the mountains and didn't feel too far away.

Chloe

Grounding, refreshing, enlightening, a gift to my spiritual self and personal growth.

Joanne

It was a Divinely inspired weekend.... Just WOW.

Clive

A beautiful immersion into a deep world of spiritual bliss where fellowships were forged with love. This all done in the most magnificent surroundings.

Val

An amazing experience, skillfully orchestrated. What was unique was the unifying presence, the love of the Divine Mother.

Anonymous

I really liked the devotional quality of the retreat. The Shakti (Divine energy) was intense at times. I loved the kirtan and bhajans (devotional singing). The retreat helped me open my heart and connect with a deeper part of myself. I appreciated the semi-structured approach and room for spontaneity.
